LinkedIn: [hamza-mousa](#) | *GitHub:* [HamzaY-Web](#)

PROFILE

Motivated Computer Science graduate from Al-Balqa' Applied University (GPA: 3.73/4) with hands-on experience in modern web development. Completed specialized front-end training at WeWebIt, expanding technical proficiency across the React ecosystem, Next.js, and backend integrations. Experienced in building responsive interfaces, testing RESTful APIs, and deploying scalable full-stack applications.

PROJECTS

WordGuardian | Full Stack Web Application (Graduation Project)

- Developed an academic document platform featuring AI-powered translation and text summarization.
- Integrated Google Drive API for cloud storage and built a secure Node.js/RESTful backend.

PropertyPulse | Full Stack Web Application

- Built a comprehensive property rental platform using Next.js, MongoDB, and NextAuth.

IdeaDrop | Full Stack MERN Application

- Created a platform for sharing startup ideas, optimized with TanStack Router.

Crypto Dash, Shopping Cart UI, & GitHub Finder:

- Built responsive applications leveraging the CoinGecko API, Strapi, Cloudinary, and TanStack Query.

Sleep Health Analysis Model | Python, Machine Learning (Scikit-Learn)

- Developed a machine learning model to predict sleep disorders based on lifestyle and health metrics.

SKILLS

Frontend Development: React.js, Next.js, TypeScript, Tailwind CSS, React Router, TanStack Query, shadcn UI, Material UI, HTML5, CSS, JavaScript

Backend & Databases: Node.js, RESTful APIs, PostgreSQL, MongoDB, SQL, NextAuth

Tools & Platforms: Git & GitHub, Vercel, Cloudinary, Postman, Google Cloud Console, Google AI Studio

EDUCATION

Bachelor's Degree in Computer Science
Al-Balqa' Applied University
GPA: 3.73/4

2022 - 2026
Graduated: June 2026
